## Contact Spray

### Eliminates leakage current and voltage loss

WEICON Contact Spray is based on a special combination of active ingredients for the care and protection of electrical contacts and components.

Dispels moisture from electrical contacts, prevents leakage current and voltage loss and keeps contacts, fuses, cable connections, etc. free of oxidation and sulphide deposits.

WEICON Contact Spray is therefore used, for example, in fuse boxes, intercom systems and gate drives, socket outlets, cable drums and extensions, electrical garden equipment and lighting systems.

#### Applications:

- Penetrates and dispels moisture and water
- Dissolves oxide deposits from contact points
- Protects permanently against oxidation and corrosion

#### Directions for use:

Apply only on switched-off and cooled-off appliances (pull out mains plug). Shake can thoroughly before use. Do not use on energized equipment. Apply a thorough coating at a distance of approx. 5 cm and allow to soak in for approx. 30 seconds. Absorb excess substance with a non-fluffy cloth.

#### Packaging:

400 ml spray can

Art.-No.: 11152400
