

AN IMPOSSIBLE BOND?

The challenge of bonding plastics

Easy-Mix

PE-PP 50

Thanks to its transparent curing, WEICON Easy-Mix PE-PP 50 is especially suitable for creating visually appealing adhesive bonds. Its special formula makes it ideal for zero-gap bonding and for connecting surfaces with extremely small bonding gaps of less than 0.2 mm.

- ▶ transparent
- ▶ pot life: 6 minutes
- ▶ bonding gap: 0 to 1 mm
- ▶ handling strength after 12 minutes
